TABLE I.

AREA, HOUSES AND POPULATION.

This table shows for each district and for the State of Manipur and the Khasi States the area, the number of towns and villages, the number of occupied houses and the total urban and rural population, male and female.

The areas of the various districts in the table have been calculated by the Survey Department from modern maps. A large amount of topographical survey work has been done in the province during the last ten years and the areas given in previous Census Reports, which were calculated from old maps, are mostly inaccurate.

Although the exact area of the whole of the Khasi and Jaintia Hills is known, the exact area of the British portion of the district and the area of the Khasi States portion are not known as the boundaries between the two have never been precisely defined. The separate areas of the Khasi States and the British portion of the Khasi and Jaintia Hills as given in these tables must therefore be considered as approximate only.

The area of the Sadiya Frontier Tract is the administered (and censused) area as calculated by the Political Officer from up-to-date maps.

The areas added to the province since 1921 as the result of the incorporation into British India of previously unadministered tracts are as follows :—

	Area in square miles.	Population.
1. The Melomi Primi area in the Kohima Subdivision of the Naga Hills	396	4,620
2. Six villages east of Mokokchung... ..	32	2,200
3. The Zongling area to the south of the Lungleh Subdivision, Lushai Hills	160	1,696
4. Various Abor and Naga villages in the Sadiya Frontier Tract	320 (approximately).	7,195

The total area added to British territory in Assam since 1921 is thus approximately 908 square miles with a population of 15,711.

The total mapped areas of the Sadiya and Balipara Frontier Tracts amount to 18,473 and 9,537 square miles respectively. The areas of these Tracts as given in the table are the administered areas only.

At Imphal in Manipur State there is a small British administered area known as the "British Reserve." This "reserve" is not British Territory though it is administered by the Political Agent; it has an area of 7 of a square mile and a population of 3,625 of whom 2,212 are males and 1,413 females.

TABLE II.

VARIATION IN POPULATION SINCE 1881.

The figures for 1921 and earlier years differ in several cases from those shown in the Census Tables of 1921. This is due to various inter-district transfers which have taken place during the last decade. The effect of these changes on the population of the districts concerned has been calculated and the figures adjusted accordingly. The 1921 population of thanas and mauzas given in Provincial Table I has been revised in a similar fashion.

2. The districts affected by transfer of areas were Cachar, the Naga Hills, Kamrup, Darrang, Balipara, Nowgong, Lakhimpur and the Sadiya Frontier Tract, but the only transfers worth mentioning are the transfer of one mauza from the Naga Hills to the North Cachar Hills, certain mutual transfers between Kamrup and Darrang following the declaration of the Jiya Bornadi as the boundary between these two districts and the transfer of some Abor villages from Lakhimpur to the Sadiya Frontier Tract.

3. The population censused for the first time amounts to 15,711. The distribution of this population is given in the fly-leaf of Table I. As it is quite impossible to estimate what this newly censused population would have amounted to at previous censuses no attempt has been made to effect any adjustments on this account in the previous population figures of the districts concerned.

4. In columns 11 and 12 the variations shown against the province do not agree with the totals of the British districts and States. This is due to the fact that the census papers of Manipur State were destroyed in the insurrection of 1891. Hence no variation of the population between 1881-1891 and 1891 to 1901 can be given for Manipur State or for the total of the Assam States. The Lushai Hills was not censused in 1881 and the figure given for 1891 is only an estimate of the population of the northern portion which was, at that time, the only part of the Lushai Hills within the province.

5. At all previous censuses the Khasi States were included in the Khasi and Jaintia Hills district of which only a part is British territory. The population of these States at previous censuses has now been calculated by adding the previous population figures of the Jowai subdivision (all British) to figures which, on the basis of the proportion as ascertained at this census, represent the population of the British portion of the sadr subdivision and then deducting these figures from the total population of the district as given at previous censuses.

TABLE III.

TOWNS AND VILLAGES CLASSIFIED BY POPULATION.

In this table the population enumerated in encampments, boats, trains, etc., has been excluded from the village and urban population and shown in a separate column.

In the temporarily settled districts of Assam the village corresponds to the cadastral village. In the hills and the permanently settled portion of the province the village is the residential village or group of houses bearing a separate name, small outlying hamlets being treated as parts of the nearest village.

TABLE IV.

POPULATION OF TOWNS WITH VARIATIONS SINCE 1881.

This table shows the population of all municipalities and 'small towns' constituted under the Assam Municipal Act (I of 1923), of the Shillong Cantonment and also of certain other places (3 district headquarters and one railway centre) which may be considered of an urban character. The total number of towns in Assam is now 30 as against 29 in 1921. The difference is due to the fact that the Shillong Cantonment has now been shown as a separate town, whereas in 1921 it was included in Shillong. No adjustment has been made in this table for the numerous small extensions of municipal boundaries which have taken place in the last decade. Persons enumerated in railway stations, boats and encampments within town limits have been included in the population of the towns in which they were enumerated.

TABLE VI.

BIRTHPLACE.

This table corresponds to table XI of the 1921 Census but for reasons of economy sorting was not done for birthplace by districts except in the case of Manipur State and certain contiguous Bengal districts. The statistics, therefore, of persons born in Assam (except Manipur) show only the total number of persons enumerated in each district who were born anywhere in Assam. Persons born outside Assam have been arranged under the following heads:—

- A II(a)—Adjacent provinces, *i.e.*, Bengal and Burma.
- A II(b)—Other provinces and States in India.
- A II(c)—India unspecified.
- A II(d)—French and Portuguese Settlements in India.
- B —Other Asiatic countries.
- C —Europe.
- D —Africa.
- E —America.
- F —Australia.
- G —At sea.

For the purpose of this table the Khasi States have been included in the British district of the Khasi and Jaintia Hills as it was found impossible to separate the figures of the Khasi States from those of the rest of the district.

TABLE VII.

AGE, SEX AND CIVIL CONDITION.

This table consists of two parts ; Part A gives the provincial summary of the whole population by religion, age, sex and civil condition and Part B contains the distribution by districts.

This table corresponds with Table VII of 1921 but the method of compiling the quinary age groups differs from that employed at the 1921 census. The method used at the present census is, briefly, as follows :—The ages returned were first grouped in alternate groups of 3 and 7, *e.g.*, 4-6 and 7-13 and then regrouped into quinary groups by halving each group and adding half the subsequent or preceding group.

TABLE VIII.

CIVIL CONDITION BY AGE FOR SELECTED CASTES.

This table, like Table XIV, deals only with certain selected castes and tribes in certain districts or areas where they are specially numerous.

The figures for the various castes differ in certain instances from those shown in Table XVII. This is due to the fact that the figures in Table XVII include entries sorted under other heads which were afterwards added in the course of compilation.

TABLE IX.
INFIRMITIES.

The infirmities recorded at the Census were insanity, deaf-mutism, blindness and leprosy.

The Table is divided into two parts—Part I shows the distribution of the persons afflicted according to age, and Part II their distribution by districts.

Some unfortunate persons were returned as suffering from more than one infirmity. In the table they have been shown under each. This explains why the total number of afflicted persons shown in columns 2, 3 and 4 does not agree with the total of the figures for each separate infirmity. The following is a list of these double entries :—

—					Total.	Males.	Females.
1					2	3	4
Insane and blind	19	5	14
Insane and leper	2	2	...

TABLE XIV.

LITERACY BY SELECTED CASTES, TRIBES OR RACES.

This table gives the statistics of literacy for certain selected castes and tribes. The population figures for the various castes and tribes do not show the entire number of persons in each caste or tribe but only the number of persons of the age of 7 years and over who were enumerated in the localities mentioned in column 2. The localities mentioned in this column are the districts or areas where these particular castes and tribes are principally found.

The number of literates shown against each caste or tribe is the number of literates of the age of 7 and over.

TABLE XV.

LANGUAGE.

This table is divided into two parts : Part I gives the distribution by districts of the languages returned as their mother-tongue by the persons enumerated in Assam and Part II shows the extent of bi-lingualism in the province.

Part I falls into three groups, *viz* :—

- A.—Vernaculars of India $\left\{ \begin{array}{l} (i) \text{ of Assam,} \\ (ii) \text{ of India outside Assam.} \end{array} \right.$
- B.—Vernaculars of Asiatic countries beyond India.
- C.—European languages.

Languages which have so few speakers that they are not worth a separate column are included in "Others" at the end of the table.

The vernaculars of Assam—unlike the languages in the rest of the table—have not been given in alphabetical order but follow generally the order of families, branches, groups, etc., given in the Linguistic Survey of India. This has the advantage of showing in close proximity languages which fall into the same sub-group, *e.g.*, all the Central Naga languages will be found next to each other in the table. In certain cases I have given details of languages which are really dialects of another language, *e.g.*, Changsen is a dialect of Thado though the Changsens are of different origin from the Thados. I have done this as certain district officers of hill districts have asked me to give as much detailed information as possible in this table.

"Kachha Naga" which appears in the tables of previous censuses and the Linguistic Survey as "Empeo or Kachha Naga" appears in this table under three heads, *viz*, Kachha Naga, Liyengmai and Zemi. I am informed by Mr J. P. Mills, I.C.S., Deputy Commissioner Naga Hills, that the term "Kachha Naga" (though in common use) is a meaningless term and that about half the Kachha Naga speakers in Manipur are really Liyengmai and half Zemi. As however "Kachha Naga" was returned as their tribe and language by the Liyengmai and Zemi of Manipur I have shown it as such. Part II of the table should be read in connection with the Linguistic Map in the Report Volume.

TABLE XVI.

RELIGION.

This table shows the population of the province classified according to the main religions. In the interests of economy the sects of Muslims were not sorted for and the sects of Christians were only ascertained under the following heads :—

Christian sects.

Sect				Males.	Females
Roman Catholic	8,036	7,020
Roman—Syrian	Nil	Nil
Other Syrians	3	Nil
Other Christians	116,006	118,181
Total	124,045	125,201

The following statement gives details by districts of the 480 persons grouped in the table under the head “ Miscellaneous ”:—

TABLE XVII.

CASTE, TRIBE OR RACE.

In the interest of economy the only castes and tribes sorted for at this census were those for which the figures were likely to be necessary for administrative purposes.

The figures given in this table under the head "Castes classed as tea garden cooly castes" and "Castes classed as Hindu Exterior Castes" which were compiled with a view to ascertaining the number of the depressed and backward classes in Assam cannot, for various reasons, be used without considerable adjustment. The matter is dealt with at length in the Appendix to Chapter XII of the Report volume.

The appendices giving details of the Kukis and Lushais contain various anomalies owing to the fact that certain tribes which, in Manipur, would be generally classed as Kukis, would in the Lushai Hills, come under the general term of "Lushai." Thus the Mhars and Paites of Manipur will be found in the Kuki appendix, while the Mhars and Paites who dwell in the Lushai Hills will be found in the Lushai appendix.

The word "Lushai" covers many clans and is the result of incorrect transliteration of the word "Lushei"—the premier clan in the Lushai Hills. In this table, as in Colonel Shakespears' monograph on the Lushei-Kuki clans, Lushai is used to signify all Lushei-Kuki clans dwelling in the Lushai Hills and Lushei for the clan bearing that name.

I have placed Chirus in the Kuki appendix as their language belongs to the Old Kuki sub-group. Some authorities have treated them as a Naga tribe of Manipur and some as an old Kuki clan. In my own mind I have always classed Chirus as a Naga tribe.

Certain castes which are indigenous to Assam have or claim to have the same name as castes from other provinces which appear to have nothing in common with them. Thus the upcountry Mali is quite a different caste from the indigenous Mali (Bhuinmali) of Sylhet. The former appears in the table as Mali (non-indigenous) and the latter will be found in Appendix V under "Hindu Exterior Castes"—a term which is explained in the Appendix to Chapter XII of the Report volume.

* This heading includes Hindu and tribal cooly castes on tea gardens as well as those settled in the villages. It does not, however, include persons (whether on tea gardens or outside) who originally belonged to cooly castes but who have become Christians, as the caste of such persons was recorded in many cases as "Indian Christian." Castes which are cooly castes but which appear separately in this table, e.g., Kurinis, have not been included in these figures. The matter is dealt with at length in the appendix to Chapter XII of the Report volume.

* Most of the unspecified Nagas occur in the Sadiya Frontier Tract, Lakhimpur and the Cachar plains. Mr. J. P. Mills, I.C.S., Deputy Commissioner of the Naga Hills, informs me that "Rangpang"—itself an inaccurate word—would cover all Sadiya and Lakhimpur Nagas and that practically all Nagas of the Cachar plains are Kabais.

† Mr. Mills informs me that the term Kachha Naga (though commonly used) is meaningless and that about half of the people recorded as Kachha Naga in Manipur are Zemi and half Liyengmai.

TABLE XVIII.

VARIATION OF POPULATION OF SELECTED TRIBES AND CASTES.

In 1921, owing to a misunderstanding of the instructions, Christians belonging to Hill tribes were returned in many cases as "Indian Christian". Furthermore Imperial Table VIII of the 1921 Census—Caste, tribe or race—included only Hindus and Animists and did not include Christians. Hence it is impossible to give the number of Christians belonging to the various Hill tribes for 1921. The same applies also to previous censuses.

As a result the 1931 figures of tribes which have a large number of Christians are not comparable with those of previous years in which the Christians have not been included. In such cases I have given the number of speakers of the tribal language in brackets below the tribal figures.

Owing to the fact that in previous censuses the number of unspecified Kukis was very large, it is useless to give figures for the various Kuki tribes. For example, the number of Thados in Manipur alone is now 47,086 against 29,975 in 1921: this is merely due to the fact that the number of unspecified Kukis in 1921 and earlier years was very large. In fact in the very early censuses all Kukis were lumped together and even in 1901 most of the numerous Naga and Kuki tribes of Manipur appear under the unspecified head of "Naga" or "Kuki".

PROVINCIAL TABLE I.

AREA AND POPULATION OF THANAS, MAUZAS, ETC.

1. This table shows the population of each local unit in every district, State, and subdivision.

The general administrative unit in the plains districts is the thana or police station; where, however, there are smaller administrative units such as the mauzas of the temporarily-settled districts of the Assam Valley, the population of each mauza or part of a mauza has also been shown under the thana in which it falls.

In the hill districts the local unit varies considerably; in some districts there are no convenient local units less than a subdivision; in others, Doloiships, Sardarships, mauzas, etc., are well known administrative units and the population figures of these have been shown.

2. In the districts of Nowgong, Sibsagar and Lakhimpur there are certain areas which have been declared "backward tracts" by notification under section 52A (2) of the Government of India Act, 1919. As a certain amount of confusion has been found to exist regarding the units or parts of units which are included in these tracts the following information may prove to be useful:—

NOWGONG AND SIBSAGAR MIKIR HILLS.

The Mikir Hills "backward tract" is divided between the districts of Nowgong and Sibsagar (Golaghat subdivision). The Nowgong Mikir Hills portion consists mainly of the following mauzas:—Duar Salona, Duar Bamuni, Duar Amla, Namati, Lunding (Mikir, Kuki, Kachari and Town), Langfer, Jamunapar and Rangkhong. Six square miles of Duar Salona and three square miles of Duar Bamuni fall, however, outside the Mikir Hills backward tract. On the other hand 30 square miles of Duar Bagori and 11 square miles of Mauza Garubat fall within the Nowgong Mikir Hills backward tract.

There is thus considerable overlapping between the administrative units of the regularly administered portions of the Nowgong district and the units of the backward tract portion and some simplification of the existing situation appears to be desirable.

The following is the total area and population by religion of those mauzas in Nowgong which fall mainly within the Mikir Hills, *i.e.*, those mauzas marked in the table with an asterisk:—

			Population.		
			Total		
Nowgong Mikir Hills	Area in square miles	2,315	Total	...
				Males	...
				Females	...
	Hindu.		Muslim.		Tribal.

Males	896	Males	...	12
Females	804	Females	...	2
				Total	...

				Total	...
				Males	...
				Females	...

and the following is the area and population by religion of the mauzas which fall within the Sibsagar Mikir Hills (Golaghat subdivision):—

			Population.		
Sibsagar Mikir Hills (Golaghat)...			Area in square miles	2,041	Total ... 56,094
					Males ... 30,161
					Females ... 25,933

Total	3,531	Total ... 749	(All male) ... 6
Males	1,900	Males ... 415	
Females	1,631	Females ... 334	

The total area of the Nowgong and Sibsagar Mikir Hills "backward tract" is thus 4,386 square miles with a total population of 135,992 persons. In this area however are included several mauzas, *e.g.*, Borpathar and Namati, which are really plains areas and are not inhabited by hillmen,

LAKHIMPUR FRONTIER TRACT.

This small tract has an area of 394 square miles and consists of mauzas Buridihing, Makum Phakial, and the southern portion of Makum which contains the house tax-paying villages of the "Sarkari" Nagas. Over half the total area of the tract is comprised in Buridihing Mauza which is really an undeveloped plains area. The intention of the Local Government is to transfer this mauza to the regularly administered portion of the district as soon as it is sufficiently developed and its communications have been improved. The total population of the Lakhimpur Frontier Tract by sex and religion is as follows :—

Total population.			Hindu.			Muslim.			Tribal.		
Total	...	13,590	Total	...	7,252	Total	...	171	Total	...	3,692
Males	...	8,016	Males	...	4,659	Males	...	144	Males	...	1,838
Females	...	5,574	Females	...	2,593	Females	...	27	Females	...	1,854
			Christian.			Buddhist.			Others.		
Total	648	Total	...	1,817	Total	10
Males	449	Males	...	916	Males	10
Females	199	Females	...	901	Females	nil.

3. Although all the units of the backward tracts—marked by an asterisk in this table—have been shown under various thanas this must not be taken to mean that they form part of the regular jurisdiction of the thanas concerned. The Code of Criminal Procedure is not in force in the backward tracts which are governed by special rules of their own relating to the administration of justice and these rules regulate the action which the police are permitted to take in these tracts.

PROVINCIAL TABLE II.

POPULATION OF DISTRICTS, SUBDIVISIONS AND THANAS BY RELIGION AND LITERACY.

This table shows the population of each district, subdivision and, in the plains of each thana by religion and literacy.

It will be noticed that Dhing thana in Nowgong and Digboi thana in Lakhimpur do not appear in this table. This is due to the fact that these are new thanas constituted during the period the census was taking place. It has been found possible to make the necessary adjustments in Table I to show the areas and populations of these new thanas but it was too late to effect any adjustments in this table.

The division of Hindus into "Brahmans" "Other Hindus" and "depressed classes" is a new feature of this table. The figures for the "depressed" classes given in it cannot, however, for various reasons, *e.g.*, the return of a higher caste name by certain depressed communities, be accepted as accurate but they afford a good indication of the extent of literacy among those classes as compared with the higher classes of Hindu society. The persons included under the head of "depressed classes" in this table represent the castes classed as "exterior castes" *plus* the castes classed as "Tea garden cooly castes" in Imperial Table XVII—Caste, Tribe or Race.

As, however, various adjustments had to be made to the figures in Imperial Table XVII before the correct number of "exterior castes" and of cooly castes could be ascertained, the figures for "depressed classes" in this table which amount to 1,830,000 in all are actually about 143,000 short. Further information regarding the probable numbers of the "depressed" classes of Assam will be found in the Appendix to Chapter XII of the Report volume. The figures for Hindus in this table do not include Brahmos and Aryas whose numbers in Assam are negligible, there being only 448 Brahmos and 12 Aryas. A slight difference will be found in the total of literates and in the total of literates in English as given in this table and in Imperial Table XIII. This is due to the fact that in Imperial Table XIII children under 5 years of age who were returned as literate have been shown as illiterate. Village Census Tables showing the population of each village by sex and religion have been supplied to all district officers.

These adjustments were subsequently made, in Jorhat and Sibsagar mauzas in Sibsagar were subsequently made. These adjustments											

* The discrepancy between the total population of these thanas as given in this table and in Provincial Table I is due to the fact that adjustments of portions of Holongapar mauza in Jorhat and Solaguri mauza in Sibsagar were subsequently made. These adjustments have been included in Provincial Table I but could not be shown in this table.

*Manipuri Brahmaus, as explained in the footnote to Imperial Table XVII—Caste Tribe or Race, were classed under Manipuri as what was required for the purpose of that table was the total number of Manipuris of all castes. Hence at the time of compilation Provincial Table II the number of Manipuri Brahmaus could not be ascertained without a resort of all the Manipuri ships. The approximate number of Manipuri Brahmaus is about 10,000.

PROVINCIAL TABLE III.

TEA GARDEN POPULATION BY SEX AND RELIGION.

Five provincial tables dealing specially with the tea garden population of the province were published in the 1921 volume of tables. At this census, for reasons of economy, it has not been found possible to repeat these tables and the only information I can supply is the actual number of persons censused on tea gardens by sex and religion.

The tea gardens of Assam are all situated in the plains districts of the Assam and Surma Valleys and hence the names of the hill districts do not appear in the table.

The figures include all persons censused on tea gardens; managers, doctors, resident traders, clerks, etc., as well as the actual cooly population are, therefore, all comprised in the table.
